

a million senses

unique holidays for unique people

Have you ever had
an **autism specialist** design your
holidays ?

Being an autism professional is without a doubt challenging and rewarding. We are a team of three and during the 20 past years we spent time close to autistic people and their families, we invented different ways to make their lives wonderful, but we wanted more.

Living in Greece and the beautiful island of Chios, we realized how amazing would be if there was a service that would offer the unforgettable holiday experience in Greece exclusively adapted to the individuals with ASD and their families.

We combined our expertise and everything that Greece offers, nature, culture and great weather all year long, and here we are - A million senses, autism friendly holidays in Greece!

welcome to the A million senses family.

We'd **love** to see you soon in **Greece!**

amillionsenses.com
